RE: Approval, Administrative Closure of RCRA Permitted Treatment Unit S002, Oil And/Or Aqueous Solidification Process, 750 Pad.

Dear Mr. Legare and Ms. Lavorato:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the "Division") has received the *Closure Description Document (CDD)* for Closure of the ... RCRA Permitted Treatment Unit S002, Oil And/Or Aqueous Solidification Process, 750 Pad, in correspondence signed by DOE on March 3, 2005. The CDD is hereby approved for the S002 treatment unit, specifically Perma-Con West and Perma-Con East, located in Tent 5 of the 750 Pad.

The Division agrees that administrative closure, as described in State RCRA Permit CO-04-06-23-01, Permit Condition Part X.D.1.a, Clean Closure Option 1: Unit Review and Inspection, should be adequate. As acknowledged, Option 1 must be based on an Operating Record that indicates no releases occurred at any time during the brief operational period of the treatment unit, or were quickly mitigated, and by visual inspection. The CDD presents these as future activities; therefore, a closure summary report must be submitted as indicated.

If you have any questions concerning this correspondence, please contact me at 303-692-3367 or Harlen Ainscough at 303 692-3337.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
